September 8, 2011

Mayor Mike Frazier  
NCLGA Resolution Committee Chair  
206-155 George St  
Prince George BC V2L 1P8

Dear Mayor Frazier,

Thank you for sharing the information on the North Central Local Government Association 2011 Resolutions in your letter dated July 27, 2011. We are pleased that you share the Rick Hansen Foundation's commitment to work towards a healthy and inclusive world.

I am writing in support of resolution A2: Inclusive Physical Activity School Curriculum as stated below.

"WHEREAS physical literacy is crucial to the inception of positive lifelong activity patterns and healthy lifestyles in children; however the social well-being of children may be affected if they are not able to access all school programs and facilities;

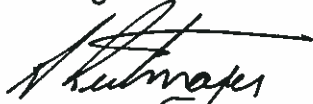

AND WHEREAS the Let's Play Program in association with the Rick Hansen Foundation is an example of a success story of the integrating seamless access into school programs for all students regardless of physical ability:

THEREFORE BE IT RESOLVED that NCLGA and UBCM lobby the Province to implement a Provincial adaptation to curriculum that will encourage:

- 1) Inclusive physical activities into all grades, particularly in physical education
- 2) Adapt wording in Provincial curriculum that will reflect seamless inclusion for all students
- 3) Promote input and awareness in the development of resources and services (or programs) that will enhance inclusive physical activity
- 4) Adapt and enhance post secondary education to teach and reflect inclusive physical activity through sport and recreation, healthy living, education and other related programs."

We look forward to hearing the outcome of the resolution following the Union of British Columbia Municipalities AGM & Convention. Please let me know if you require any further support with this important endeavour.

Best regards,

Art Reitmayer, FCA, MBA
